CUSTOM FINISHES

14K GOLD

TC-10/14(P) POLISHED 14K GOLD
TC-10/14(S) SATIN 14K GOLD
TC-10/14(S)GCC SATIN 14K GOLD*
TC-10/14(S)F13CC SATIN 14K GOLD*

This softer, more subtle version of 24 Karat Gold, is easy to integrate into most interior designs because of its lighter color. It goes well with cream colors, beige, various shades of green and darker woods.

24K GOLD

TC-10/24(P) POLISHED 24K GOLD
TC-10/24(S) SATIN 24K GOLD
TC-10/24(S)GCC SATIN 24K GOLD*
TC-10/24(S)F13CC SATIN 24K GOLD*

Gold is the recognized standard for corporate and VIP interiors. 24 Karat specifically holds this unique distinction among all decorative metals. This color complements most interiors and is a bold statement of elegance.

ALMOND GOLD

TC-10/17(P) POLISHED ALMOND GOLD
TC-10/17(S) SATIN ALMOND GOLD
TC-10/17(S)GCC SATIN ALMOND GOLD*
TC-10/17(S)F13CC SATIN ALMOND GOLD*

Since we introduced this finish in 1994, this alloy with light beige accents has become one of the most popular finishes in the industry. Almond Gold blends nicely with taupe, bone, beige and ivory, as well as warm grays and most neutral colors. It is a true multi-use color that seems to absorb into almost any interior

BLUSH WHITE GOLD

TC-11/15(P) POLISHED BLUSH WHITE GOLD
TC-11/15(S) SATIN BLUSH WHITE GOLD
TC-11/15(S)GCC SATIN BLUSH WHITE GOLD*
TC-11/15(S)F13CC SATIN BLUSH WHITE GOLD*

A combination of several precious metals gives this finish its unique hue, which is lighter than Rose Gold and when textured, shows its true earth tones. It is best used as a soft accent to go with neutral colors such as light beige and medium wood tones.

CHAMPAGNE GOLD

TC-10/16(P) POLISHED CHAMPAGNE GOLD
TC-10/16(S) SATIN CHAMPAGNE GOLD
TC-10/16(S)GCC SATIN CHAMPAGNE GOLD*

Introduced in 1993, to imitate the pale gold color of champagne, this alloy is similar to Almond Gold. It represents a refined gold that compliments interiors in the lighter creams, beiges and light ivories, as well as softer shades of green and dusty blues.

*GCC = WITH GLOSSY CLEAR COAT
*F13CC = WITH FLAT 13 CLEAR COAT

The logo consists of the lowercase letters 'ta' in a stylized, cursive script. The 't' has a long horizontal stroke that extends to the right, ending in a slight curve. The 'a' is a simple, rounded cursive letter.

PEACH GOLD

TC-10/12(P) POLISHED PEACH GOLD
TC-10/12(S) SATIN PEACH GOLD
TC-10/12(S)GCC SATIN PEACH GOLD*

This gold alloy has a deeper appearance than 24K and has been a steady favorite since we introduced this finish in 1993. It is a beautiful accent to match interiors with more saturated colors such as okra, saddle and terra-cotta.

ROSE GOLD

TC-10/15(P) POLISHED ROSE GOLD
TC-10/15(S) SATIN ROSE GOLD

The light red undertones of this finish set it apart from 24K gold and make this finish truly unique. Rose gold compliments shades of moss green, dusty blue and deep copper tones. Rose Gold offers an elegant accent with mahogany wood.

CHROME

TC-25(P) POLISHED CHROME
TC-25(S) SATIN CHROME
TC-25(M) MATTE CHROME

Chrome is our most durable finish and has been known for its depth of brightness and its bluish highlights. It goes well in industrial-style interiors and complements cooler colors such as soft shades of gray and blue.

TECHNO BRASS

TC-56(P) POLISHED TECHNO BRASS
TC-56(S) SATIN 24K TECHNO BRASS

Techno Brass sets the standard for a look-a-like brass that is actually a gold alloy and is non-tarnishing. It has a brighter appearance than 14K and offers a nice alternative to standard gold finishes. Techno Brass is a great accent to medium and dark wood tones as well as lighter color interiors.

NICKEL

TC-40(P) POLISHED NICKEL
TC-40(S) SATIN NICKEL
TC-40(S)GCC SATIN NICKEL*
TC-40(S)F13CC SATIN NICKEL*
TC-40(SK)F13CC SILK NICKEL*

Nickel continues to be one of the best selling finishes for aircraft interiors worldwide. With hints of brown, it goes well with warm grays, medium beiges and light wood. With a much softer tone than chrome, it is considered a natural accent color, not only decorative, but also utilitarian in its appearance.

*GCC = WITH GLOSSY CLEAR COAT
*F13CC = WITH FLAT 13 CLEAR COAT

The logo consists of the lowercase letters 'ta' in a stylized, cursive script. The 't' has a long horizontal stroke that extends to the right, ending in a slight curve. The 'a' is positioned below the 't' and is also in a cursive style.

ROSE NICKEL

TC-35(P) POLISHED ROSE NICKEL
TC-35(S) SATIN ROSE NICKEL
TC-35(S)F13CC SATIN ROSE NICKEL*

Techno Coatings introduced this finish to the market in 1988 when we added a hint of rose color to one of our most popular finishes. It works well when used with interiors in deep smoke colors such as mocha and aubergine.

SMOKE NICKEL

TC-45(P) POLISHED SMOKE NICKEL
TC-45(S) SATIN SMOKE NICKEL
TC-45(S)GCC SATIN SMOKE NICKEL*
TC-45(S)F13CC SATIN SMOKE NICKEL*

The rich black highlights in Smoke Nickel work nicely with deep earth tone colors such as chocolate brown, caramel or taupe. It can also be used with the warmer and darker grays. A slightly heavier but elegant finish, Smoke Nickel offers a dramatic accent to any interior.

PLATINUM

TC-07G(P) POLISHED PLATINUM
TC-07G(S) SATIN PLATINUM
TC-07G(S)GCC SATIN PLATINUM*

Platinum is the most exclusive of the precious metals and is known for its warm color and durability. One of our most versatile finishes; it is appropriate for a wide variety of interiors and blends well with both cool or warm grays and earth tones.

ANTIQUES

TC-40(SA) SATIN ANTIQUE NICKEL
TC-40(SA)GCC SATIN ANTIQUE NICKEL*
TC-40(SA)F13CC SATIN ANTIQUE NICKEL*
TC-70(SA)G7CC SATIN ANTIQUE COPPER*
TC-70(SA)F18CC SATIN ANTIQUE COPPER*
TC-10/24(SA) SATIN ANTIQUE GOLD
TC-10/24(SA)GCC SATIN ANTIQUE GOLD*
TC-10/24(SA)F18CC SATIN ANTIQUE GOLD*

These finishes are designed to look aged, and their soft earth tones make them very popular. Antiques are best used on distinctive and traditional interiors that have a lot of pattern and contrast in their color tone. They give an interior a traditional and classic look.

*GCC = WITH GLOSSY CLEAR COAT
*F13CC = WITH FLAT 13 CLEAR COAT
*G7CC = WITH GLOSSY 7 CLEAR COAT
*F18CC = WITH FLAT 18 CLEAR COAT
